Project Name: HRM

Project version: xx.xx

Project type: Management

Assigned SQA Engineer: Jawad Ahmed

Started Hands-on: 29/08/2021

Testing Type: Functional Testing

Requirement Received: NO

Testing Base: Black Box Testing

Development methodology: Not Specified

Framework Used: CodeIgniter

Parameters:

Title	Meaning
Passed	All functions are working as expected.
Partially Passed	Most of the functions are working except some minor issues.
Failed	Serious issues have been encountered.
Pending	Test on Hold due to unavoidable reason.

Test Scenario(ID)	Test Case	Pre Conditions	Test Step	Test Data	Expected Result	Actual Result	Pass/fail
Login Check (4001)	Check response on Entering credentials to login	None	1. Lunch Application 2.Enter login email and password 3. Check if signs in	Name: admin@gmail.com Pass: **********	Should be able to login	Login Successful	**Passed**
Login Interface(4002)	Check if the UI is ok	None	None	None	Should be OK	As expected.	**Passed**
Users(4003)	Check if all the entries are entered and showed correctly. Check if the data input field works and stores the data.	Successful login	Input data Check if data is successfully stored Recheck and take steps on stored data.	Random data input based on required fields.	4002	4002	**Passed**
Job Title(4004)	4003	4003	4003	4003	4002	4002	**Passed**
Pay Grades (4005)	4003	4003	4003	4003	4002	4002	**Passed**
Employment Status (4006)	4003	4003	4003	4003	4002	4002	**Passed**
Job Categories (4007)	4003	4003	4003	4003	4002	4002	**Passed**
Work Shifts (4008)	4003	4003	4003	4003	4002	4002	**Passed**

Comment: Test report was generated based on giving unanimous data. The software seems to be very clean and bug free because of concentrated version release. A general problem consists in every page that is it's "Responsiveness". The application is not responsive in any page, so scale may become broken based on the device it's running on. Black Box Testing doesn't require backend Database access, so database testing was not necessary. The tested faults may alter or change upon next development phase.

Smoke Test: **Passed**

Unit testing: Appropriately done by the developers.

Summary: Software needs **NO** change apart from editing and making a responsive one.

Jawad Ahmed
